UTILITAIR

erreurs

Il est difficile de taper un programme

d'une revue sans commettre d'er-

rrurs! Owend les creeurs sont stans-

lées (Syntax error in..., Line does not

exist in...), is correction est facile pelsque la ligne est indiquée, mois

lorsqu'au "point de vue" du CPC, le

programme est correct, il peut en être

ne correspond has vraiment au pro-

gramme original, alors il est impossible de retrouver l'erreur commise, à meins de comparer les ligaes de voire programme avec cettes du Journal

mais c'est très long et on risque de pas-

C'est pourquei ce programme a été

onth : il est à utiliser si vous ne retrou-

ournal favori (CPC) terminie, vous fuites "RUN" et lit, your corrigez tou-

tes les erreurs signalées par le CPC en

vous référant au journal pour compa-

rer. Si, maigré cela, il ne tourne tou-

- sauvez votre programme en ASCII

erace à l'instruction : Save "nom

Pais, si vous ôtes sur K7, rebebings la

- entrez le nom de votre programme

et instrez le support où il se trouve (K?

Après quelques secondes, les numéros

de ligne vent défiler. Vous restanque-

rez qu'à chaque ligne correspond un

code de 2 lettres sous cette forme :

>XX < ; c'est le code qui va vous

permettre de savoir d'où proviennent

lox erreucs. Pour cela, 2 faut que vous

comperiez les codes du journal à ceux

de l'écran. Si un code diffère, notez sur papier le numéro de ligne qui cor-

bande jusqu'au début de fichier ;

- chargez Anti-Erreurs :

fours may suivez cette procedure :

ser sur une erreur sans la voic.

YEZ DAS YOS EFFCUES. La frappe d'un programme de votre

prog", A.

cut autrement pour le lecteur :

Grégory NOE

respond à ce code. Continuez ames jusqu'à la fin du listage.

Le défilement terminé, recherches que vous avez notées en comparant avec le journai. Faites "RUN" et d miracle 1 ca marche. Attention, lors de la frappe du proeramme à traiter, n'omettez sucun

caractère (sauf les espaces) car Anti-Erreurs les neend en compte et bien sir, ne tapez pas les codes de contrôle. ATTENTION : orde nouvelle ver-

on n'est pay companible avec ancienne. Seule lez programmes abbés dans ce numéro po

DOMINOS

Philippe DALIBARD

Ce jeu célèbre et aux règles très simples peut maintenant se dérouler sur l'écran de votre Amstrad. N'essayez pas de tricher Big CPC is watching you!

Après avoir mélangé le jeu, l'ordinateur distribue à chique poseur segle domnos. Esnate, il fire au sont le joueur qui débutere la partie. Votre jeu s'édiche en bas de l'écrair, choque domino portent la mention de son numbro. La sélection du domino s'opère en la selection du domino s'opère de la commente, le code du pue la commente per la commente de la commente per la commente de la comme

qu'à 8 dominos : au-delà qui si la pio-

che est vide, il est possible de pas-

ser son tour

Le norrière de dominos présents dans le jeu de fondimeiru est répriseré par des autenseques en haut de l'éclars. L'auteur partie, le nortrée de points restant au joueur penden est tofétiée. Én cas de biocage du jeu, les points des deux joueurs cont totalléée. Le predant est le joueur que atteir le premar d'oponts. Le programme est biés les de d'units de premar d'oponts. Le programme est biés lacte d'units le premar de présent de la comment de la

TRAIT-STAT UTILITAIRE

Henri MATHIS

Ce programme est un logiciel de traitement de données statistiques. Il peut fonctionner aussi bien sur une variable que sur deux La représentation graphique des données est effectuée par les options 1 à 4.

Fonctionnement du footclef sur une variable

Après avoir sélectionné tontion e (entrée des données : 1 au minimum), un éventail de cara possibili-

- discramme en bâton - graphe : - histogramme :

- discramme en camembert - teblosu des calcule Pour les trois premières options, l'absolsse des axes représentara le numéro d'ordre successif de la donnée "affichée". l'ordonnée rené-

née étudiée par rapport à la somme (en valeur absolue) globale des données La quatrième option est une repré

sertation par tranche des différence pourcentages sur un namembert (4 utiliser evec moderation pour un nombre fimilé de données : nas La cinquième option est un récapi sentera le pourcentage de la dontuiatf des calculs statistiques classigues comprensant :

- attectifs. - effectifs cumulés - Informance :

- fréquence cumulée . - moyenne ; - variance : - écart-type.

Un nombre illimité de données peuvent être traitées. Ce nombre est conditionné par la dimension des vanobles indicées à la linne 520, La renrésentation graphique est effectuée par tableaux successés de 12 Aldments (les indications concernont le numém du tableau sont ins-

crites en haut à droite de l'écrant. - Fonctionnement du logiciel sur deux variables

Pour les trois premières options leur du caractère. l'acce des ordonnées : l'effectif (avec pour extrémum le plus "grande" donnée en valeur absolue).

Le quatrième option est similaire au fonctionnement sur une variable quié uniquement sur l'effectif.

Sur deux variables, lors de l'entrée des données, on a la possibilité de sélectionner la variable des abscisses:1 ou 2 au chròr

Notre ami Alca a une tâche difficile à remplir: en effet, un avion his a parachusé quatre piles pour que son générateur fonctionne à nouveau. Il doit donc mettre les piles dans le générateur en se frayart un chemin d'arværs les plaçons qui jaloment la banquise. Pour corser la difficulté, un horrible monstre vous pourchasse et cherche à vous dévorer.

IMPRESSION SUR ENVELOPPES

Ce programme fonctionne sur tous CPC + DMP 2000. Comme son nom l'indique, il imprime des adresses de destinataires (expéditeur en option) sur des enveloppes de format réglementaire (115/160) mais il est très aisément adaptable à toutes sortes de format, par simple modification des tabulations.

En Jones 510, 560 et 580, Tuttisateur doif, s'il veut que ses nom et adresse soient définitivement mémorisés (pour ne bas avoir à les retaper á chaque fois), les intégrer au programme sous forme de variables. Au premier abord cela peut sembler assez inélégent mais lucez du temps que l'on perdrait à créer ous à appeler un fichier destiné à ne contenir au maximum que onze vanables ! (Adresse + pays destinatores un particullor sauf cas exceptionnel, n'aura pas à récrire aux mémes personnes suffisamment souvent pour le justifier. De plus, on perdran beaucoup plus detemps à charger ce fichier, à le Avant impression, il suffit de placer consulter et à demander l'impression de telle ou telle adresse, qu'à tout simplement la taper (six lienes

dans le pire des cas, trois en gé-Les choix se font au fur et à mesure de découlement du programme. En cas d'erreur lors de l'entrée des ndresses. Il est possible, lorsque toutes les adresses ont été entrées, d'en corriger une. Certaines mentions sort facultatives (par exemple, le pays si l'on n'écrit pas à

postali. Pour les ometire, il suffit de aper "ENTER", aucun blanc ni saut dessous de l'autre. De même, si Dutémateur, choisit de faire apparaltre une adresse d'expéditeur, puis. qu'après réflexion. Il préfére ne pas le faire, il suffit de taper "ENTER" à

ban de l'imprimante, après avoir positionné le quide papier gauche à 9° et amené le quide papier droit contre le bord de l'enveloppe II est recommandé de régler le bouton "épaisseur papier" en position haute, en raison de la relative dogisseur de l'enveloppe.

N.B. : le symbole "--->" de la Iligne 2090 s'obtlent par : CTRLA

AUTO-DICTEE

Dominique DEVEVEY

Le programme permet de saisir le texte d'une auto-dictée puis de l'apprendre en essayant de retrouver des mots cachés par l'ordinateur. Au fur et à mesure que l'enfant progresse, l'ordinateur cache de plus en plus de mots. SI au contraire, il fait trop de fautes, le niveau de difficulds rauemente nas

Sersie d'un nouveau tode i il est possible de mémoriser un teste de treize Ignes maximum grâce à un éditeur plern écran. Dès que les treize Ignes de texte sont remplies, le programme revient automatique-

merca mercu, il est cependant possible de revenir à tout moment au menu en tapant emutanément sur les souches ! smutanément sur les souches ! et l'ensemble des caractères d'imprimeire usuels peuvent

st étre sarsis, y compris les caractères le accernais regroupés sur le pavé in numérique.

sir des aiméss
Comiger un texte : à portir du menu,
il est possible de modifier un texte
en mémoire soit pour configer une
faute, rallonger ou racosurcir le
texte... Attention ! Si fon veuf comear un texte de longueur maximum

(troize lignes plaines), il est nitosissima su préabable de supprimer au moiss un caracidre. On revert au meru en lapant sur [CTTL] et C. Entralament : si un teute vient d'être alses ou modifié, foccinateur va lout d'abbrd complère le autre. S'il souve des mola trop large (viergi-ving canadress), il affichers automatiquement le texte pour contratiquement le texte pour contrations.

Le texte est tout d'abord découpé en mots. Chaque agne de ponctuation est considéré comme un mot. Deux mots séparés per une apostrophe sont considérés com-

Pusi le justin est affiché, un certain nombre de mois étant nemplacés par une chaîne d'astorisques compresant autant d'asterisques qu'il y a de littres dans le mot à deviner. Losqu'on la tape, il est possible de la configer par summpresson, il est à noter que le porgramme régligle les espaces quand il compare le mot sessible quand il compare le mot sessible quand il compare le mot sessible quand il compare le mot meru principal en tapant simultantement sur hes touches ISHETI tantement sur hes to

Sauvegarde-Lecture sur cassette. Il est possible de sauvegarder un texte sur cassette Toutefois de texte doit avoir au préabble été

compité en utilisant la fonction "En- I trainement" du menu Test II est possible de tester son savoir Dans ce cas fordinateur n'atfichs rien in astérisque re mot, et il faut reciter toute l'auto-dictée en devinant chaque mot un par um. Traduction en siagnarf i nous vous laissons le soin de découvrir cette langue

MANOIR MAUDIT

Pages DOBISEON

Préparez-vous à vivre une aventure de terreur dans un manoir hanté.

Une vingtaine de salles mystérieuses attendent votre sagacité et votre logique.

Parviendrez-vous à découvrir l'horrible secret que recèlent les murs anciens ? Bon courage !
